

TAM Innov&

DEFINING TOMORROW'S SOLUTIONS

THE FUTURE HUB OF LUBRICATION & PERFORMANCE FLUIDS

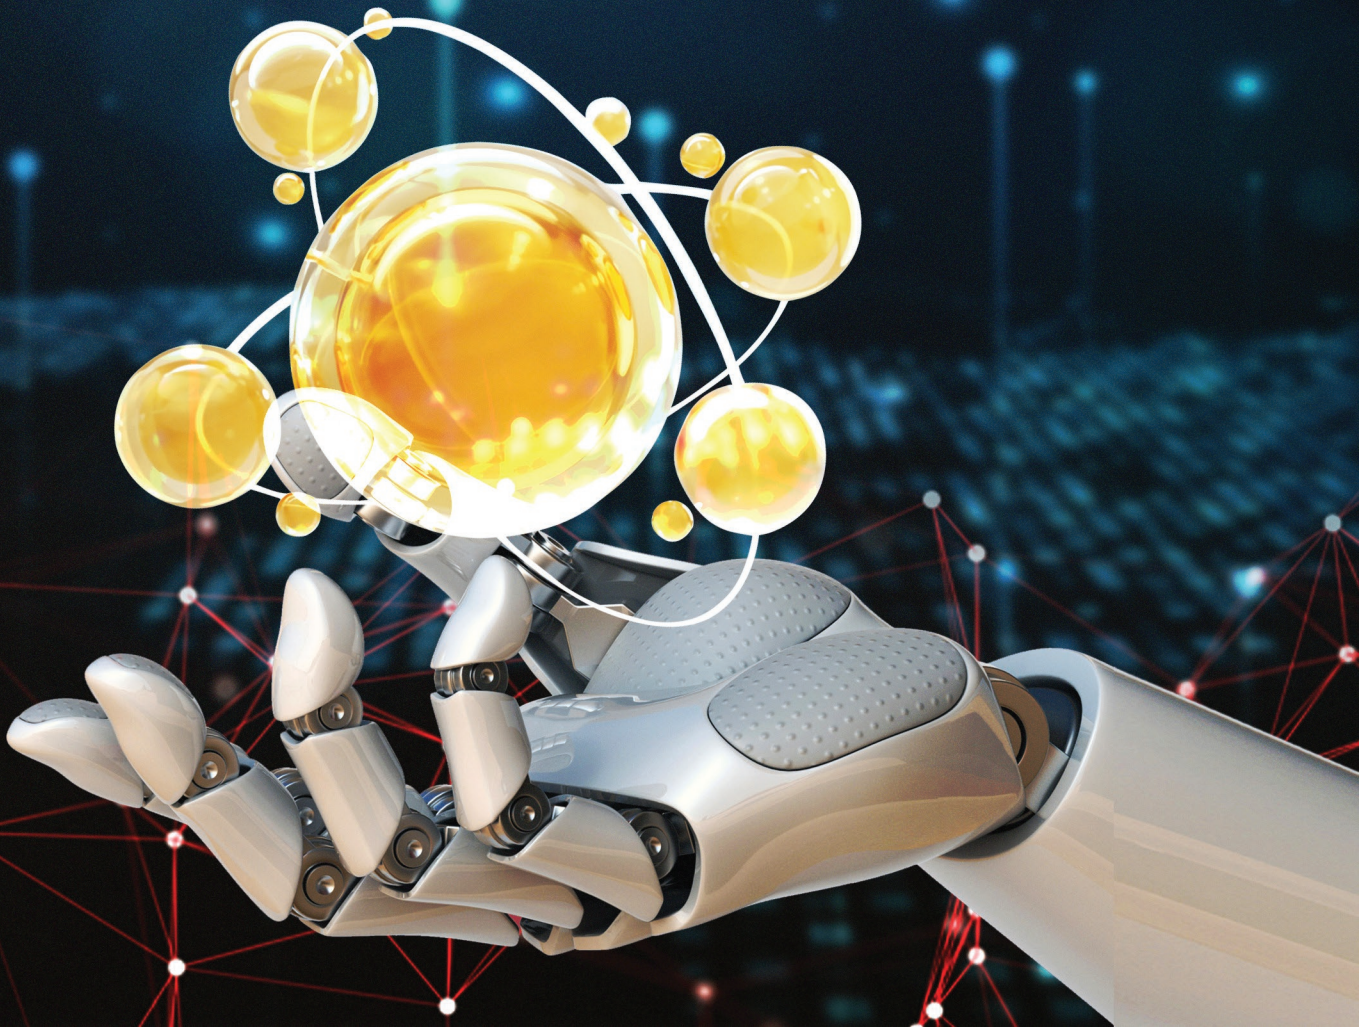

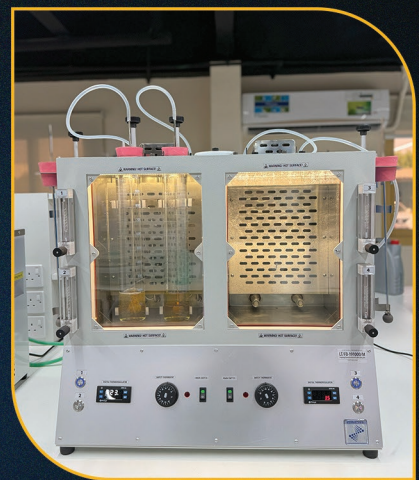

WHO WE ARE

About TAMInnov8

TAMInnov8 is a modern facility specializing in innovation, R&D, exclusive oil testing & condition monitoring, blending, and customized performance solutions. and technical support services.

Our fully equipped lab enables comprehensive testing and analysis of all types of lubricants and additives, ensuring top-quality performance and compliance with global standards.

OUR CORE VALUES

Sustainability

THE TAMINNOV8 ECOSYSTEM

TAMInnov8 is strategically positioned to be a premier global hub for lubrication technology, setting new industry standards in innovation, quality, and customer support. Through this ecosystem, we aim to redefine the future of lubrication technology while fostering long-term partnerships.

TAMInnov8 support to create value through an integrated ecosystem that offers end-to-end solutions — from product development to distribution.

What Sets Our Ecosystem Apart

- ✓ R&D-backed product development.
- ✓ Technical and marketing collaboration.
- ✓ Vertical integration: Additives → Blending → Branding → Distribution.
- ✓ Global outlook with local adaptability.
- ✓ Commitment to innovation, performance, and sustainability.
- ✓ Clear, consistent messaging that reflects our expertise and customer-centric approach.

MISSION & VISION

Mission

To serve as a trusted technology and business development partner for the lubricants industry — delivering advanced lubrication solutions and world-class technical services that empower operations, enhance performance, support sustainability, and ensure regulatory compliance across sectors.

PERFORMANCE

SUSTAINABILITY

COMPLIANCE

Vision

To become the leading global hub for lubrication technology and R&D — redefining industry standards through innovation, uncompromising quality, and unwavering customer support.

R&D AND TECHNICAL EXCELLENCE

Driven by Research. Powered by Innovation.

Our in-house technical lab is the heart of our innovation. We work closely with formulation experts, chemists, and QA professionals to create tailored products that meet exact performance criteria.

OUR R&D EDGE

*Custom product
development*

*Analytical testing
& validation*

*Compatibility & field
performance tests*

*Continuous product
improvement*

Every drop we produce is backed by science, precision, and purpose.

ADVANCED LABS & R&D SERVICES

Where Innovation Takes Shape

At the core of TAMInnov8 lies our cutting-edge laboratory, where ideas are tested, refined, and transformed into high-performance solutions. Our R&D is not just about formulation — it's about solving real-world challenges with precision and speed.

INSIDE OUR LABS

Modern instrumentation for quality testing (viscosity, TBN, TAN, pour point, Flash Point, copper corrosion, elemental analysis by ICP & ED-XRF, FTIR, Shear Stability, CCS, Brookfield, etc)

Additive compatibility & formulation stability tests

Custom R&D for lubricant innovation, fuel efficiency, and equipment protection

Product benchmarking and reverse engineering services

Pilot-scale blending for trial batches

We work in close partnership with clients to develop tailor-made lubricants that meet or exceed market standards.
